FIND THE PERFECT FIT KAILIS RING

MEASURE YOUR EXISTING RING

1. Select an existing ring that properly fits the intended finger.
2. Place the ring over the closest matching circle below.
3. Match the inside edge of the ring to the circle closest in size.
4. If the ring falls between two sizes, order the larger size ring.
5. Repeat the above steps to ensure accuracy.

AS INDIVIDUAL AS YOU

Each Kailis Jewellery ring is unique in design and variations in size will occur from standard round ring shanks. For example, wider bands will require a larger ring size than thinner bands thus note the below can only be used as a guide.

Before measuring your ring size, ensure this guide is printed at 100% size.
You can check the accuracy of your printout by measuring the line above.

STILL UNSURE OF YOUR SIZE?

If you are still unsure and need further assistance we recommend visiting your nearest Kailis Jewellery boutique or authorised retailer to have your ring size accurately measured.

PURCHASING A GIFT?

If you are purchasing a ring as a gift, ask a friend or family member if they know the ring size.

Alternatively, if possible, borrow one of their rings (preferably from the correct finger) and use the ring measuring chart to determine the approximate ring size.

RESIZING INFORMATION

We offer one complimentary ring-resizing on ring purchases for up to 6 months after purchase.

Please note, not all rings can be sized due to limitations of each unique design. Please refer to the individual product page to understand more about the sizing capabilities of our designs.

Rings that can't be sized will require special size orders, this can take between 6-8 weeks to produce and may incur additional charges.

Rings purchased in the last 30 days, unworn and in new condition, can be returned for special size orders (only applicable for current catalogue items and excludes one off designs, special makes and discontinued items).

Please contact customer care if you have any further questions regarding ring sizing or resizing.

Bracelets, Cuffs and Bangles

FIND THE PERFECT FIT KAILIS BRACELET, CUFF OR BANGLE

BRACELETS AND OPEN CUFFS

Measure your wrist with a flexible tape measure by wrapping it around your wrist once, below the wrist bone, and check the length.

Note your measurement in centimetres (cm) and check the available size against your desired bracelet.

Some bracelets can be resized and made as a special order. This can take between 6-8 weeks to produce and may incur additional charges. Please refer to the individual product page to understand more about the sizing capabilities of our designs.

CLOSED BANGLES

Bangle size is determined by the size of your hand and not your wrist.

Close your fingers together and bring your thumb to your little finger (as pictured).

Use a tape measure and wrap it around your hand at the widest point. Note the measurement as this will be the circumference of your hand.

Once you've selected a Kailis bangle check the available sizes and choose one size up from your wrist size.

FIND THE PERFECT FIT KAILIS NECKLACE

A PIECE THAT'S UNIQUELY YOURS

Use the above diagram as a guide when deciding where your desired necklace will fall on your body. Necklace position and fit may vary depending on individual height and body type.

Some necklaces can be resized and made as a special order. This can take between 6-8 weeks to produce and may incur additional charges. Please refer to the individual product page to understand more about the sizing capabilities of our designs.
